

NEBOSH partners with Calibrand for integrated e-Assessment Solution

8th March 2010, Derby, UK

NEBOSH (the National Examination Board in Occupational Safety and Health) has signed a contract with Calibrand the currency for talent®, to deliver an integrated e-assessment solution for its Health and Safety at Work qualifications.

Calibrand have integrated their e-Assessment software to automate and work seamlessly with NEBOSH's booking and learner tracking systems, script scanning service and external printing facility.

After NEBOSH conducted well-prepared trials and pre-planning, Calibrand completed the successful implementation for the first 'live' exams on time and within budget in just 10 weeks.

The partnership is even more notable in that both organisations are currently completing the 2009 [EMDA High Growth programme](#).

Teresa Budworth, NEBOSH's Chief Executive said, "*NEBOSH is a leading international provider of accredited health and safety, environmental qualifications and needs to maintain its high level of customer care, reputation for integrity and commitment to continual improvements as we expand into new markets.*

Our partnership with Calibrand will enable us to offer innovative, multiple-language assessments to meet the needs of our growing global client base.

Denis Saunders, Calibrand's Managing Director said, "*We are delighted to partner with NEBOSH as they celebrate their 30th anniversary. Calibrand were chosen by NEBOSH for our ability to work in partnership with them and their customers, coupled with our industry-leading reputation for on-time and on-budget delivery. Calibrand's e-assessment solutions will realise benefits by working with NEBOSH's in-situ systems and its students as it develops a significant international presence for its qualifications.*"
